1. Twenty-three million DME have been allocated to Bau Union Sued for construction work in 1956 at VEB Grosskokerei Lauchhammer. This construction is to complete the cokery at Lauchhammer.
2. In the past, gasoline produced at Lauchhammer had to be sent to other plants for refining and distilling, because the necessary installations did not exist at Lauchhammer. Also, a large quantity of lignite coke has been unusable in the past. This situation is to be remedied by the completion of installations at Lauchhammer.
